

Guideline using Pull Request Tracking System

1. First Setting (Must)

Choose the **"Settings"** menu, config **Boxchat** and **Language** training.

Ex: **Hanoi - Ruby** using *[edu] Ruby Pull Request's Status Checking*

Settings

ChatWork

Do Thi Diem Thao [#2025263]

[edu] Ruby Pull Request's Status Checking

Language

Ruby

Update

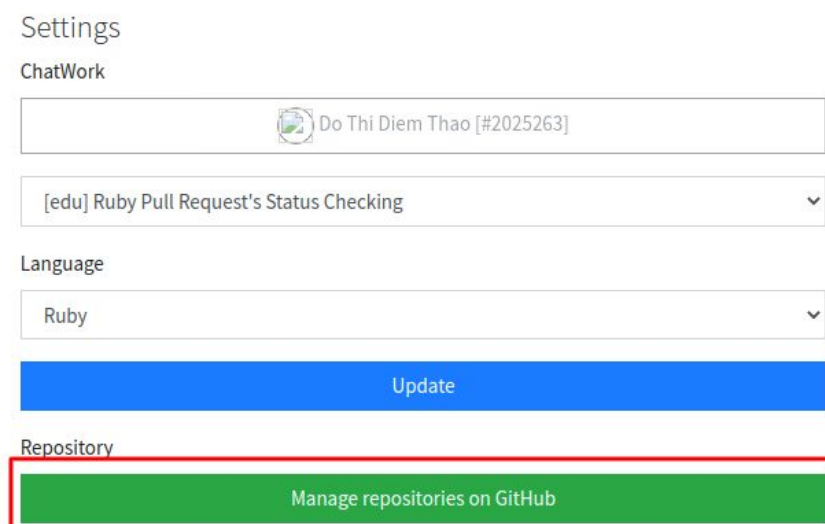

Repository

Manage repositories on GitHub

2. Setup repository

You need to set up a private repository to the PRTS System (If it's a Sun-asterisk Repository, Trainer will set it up). Following below guide:

Step 1: Click on **"Manage repositories on Github"** button

Settings

ChatWork

Do Thi Diem Thao [#2025263]

[edu] Ruby Pull Request's Status Checking

Language

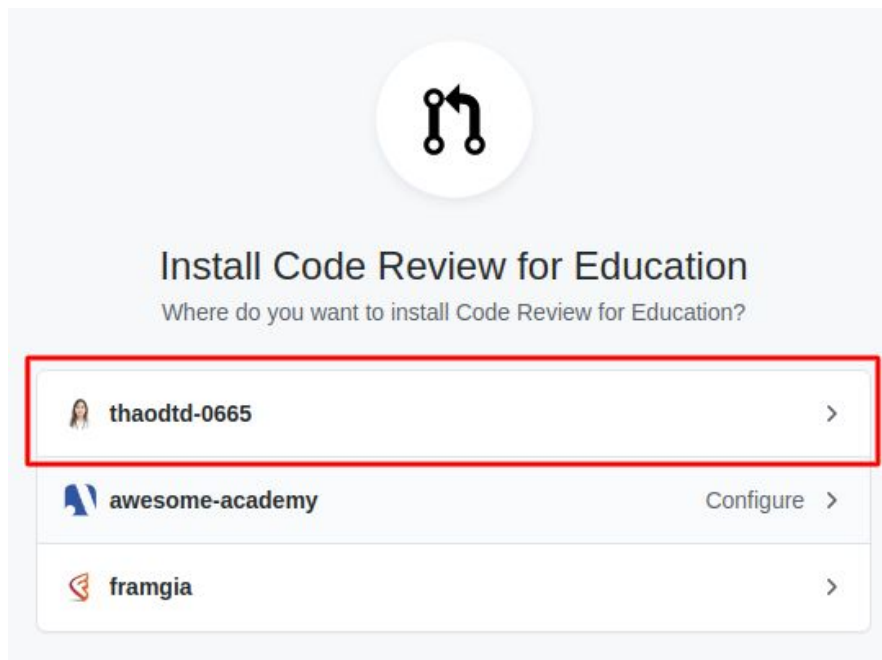

Ruby

Update

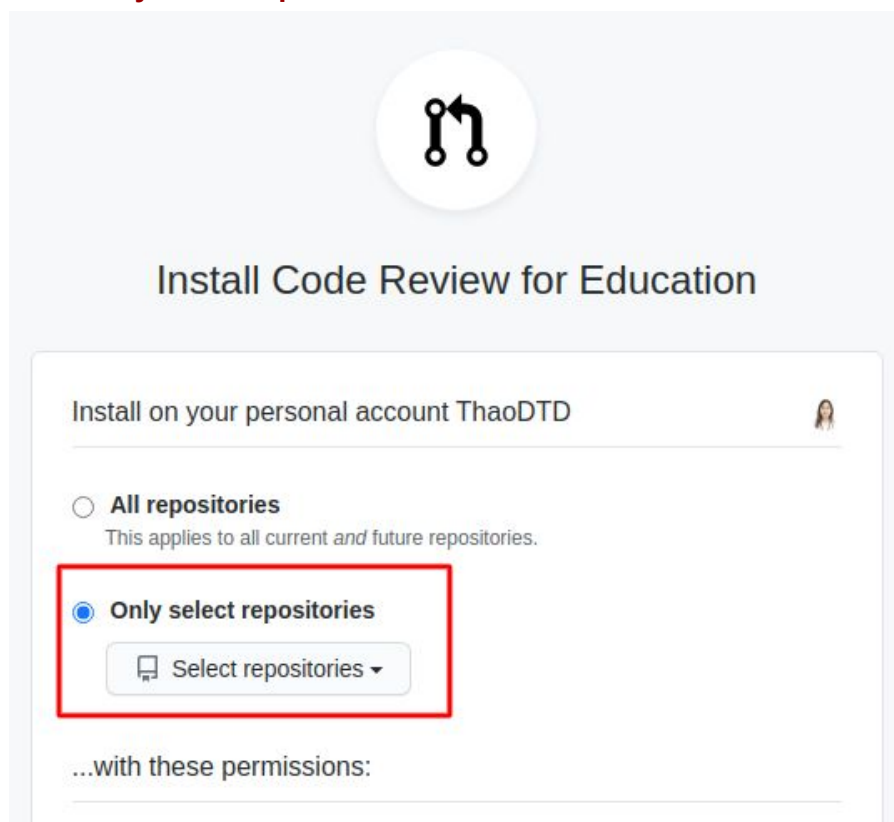

Repository

Manage repositories on GitHub

Step 2: **Select account** github using choose repository

Step 3: Checked at **"Only select repositories"**

Step 4: Select repositories then click **"Install"** for apply

Install Code Review for Education

Install on your personal account ThaoDTD

☐ All repositories
This applies to all current and future repositories.

☒ Only select repositories

Select repositories ▾

Selected 1 repository.

🔑 thaodtd-0665/code_review ×

...with these permissions:

✗ No access to code

✓ Read access to issues, metadata, and pull requests

Install Cancel

Next: you'll be directed to the GitHub App's site to complete setup.

3. Using Command review

a) For Trainee:

- When pull request is ready for review, you need input **"ready"** on tab [Conversation] then click **"Comment"**

Write Preview

ready

Attach files by dragging & dropping, selecting or pasting them.

Comment

- After ready pull request, you will receive message by chatbot

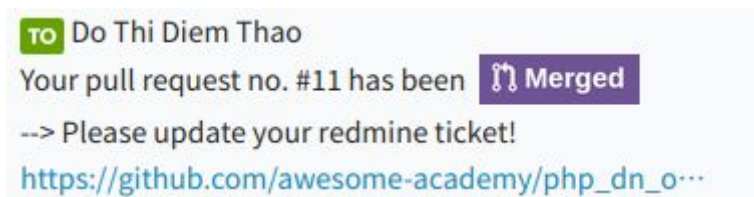

- When reviewer start check pull request, you will receive message by chatbox

- When pull request have issue need fix, you will receive message by chatbot

- When pull request is okay for merge, you will receive message by chatbox

b) For Reviewer:

- To start review pull, click "review" button

| Created | Updated | Action |
|----------------|----------------|--------|
| 2 days ago | 16 minutes ago | Review |
| 28 minutes ago | 24 minutes ago | Review |

- Input status (commented, conflicted, merged) and message on tab "conversation" then click **"Comment"**

- + **commented** : Pull have issues need fix
- + **conflicted** : Pull has been conflict code need fix
- + **merged** : Pull is okay for merge
